

# We are participating at Architecture + Construction Materials 2023

Feb. 1, 2023

We will be exhibiting at the 29<sup>th</sup> edition Architecture + Construction Materials 2023 with various stainless steel materials and samples, including new products, "New Polishing Pattern", "New Etching Pattern" and "Black Coloring Series". Under the concept of "Changing the world", we will provide the new value and potentiality of stainless steel.

Please register at the official website below, we are looking forward to seeing you there.
